

KING'S SPORTS SCHOOL TERM 1

Hello and Welcome to Term 1

I trust you have all had a restful and well deserved holiday break.

Term 4 saw a few changes in sports and times as we responded to demand. This term we have added two new sports in the form of archery and touch rugby; while some sessions have had to come to an end due to lack of interest. Throughout the year, the Sports School programme will continue to change and develop with respect to demand, and seasonal sporting codes. I am always keen to hear your suggestions on how we can make the King's Sports School programme even better.

As always I will be observing our sports sessions to ensure that the high standards we expect are met.

Please don't hesitate to wave me down as I am passing by with anything you would like to discuss.

Whilst most activities are at lunchtime or straight after school, all children in our wider community are welcome to participate in the Sports School sessions. Please feel free to pass on any information to families outside of the King's School network.

Spaces are sure to be limited so please register early to avoid disappointment. Activities start on the first Tuesday of Week One (3/2/15) and finish Thursday (2/4/15) in Week Nine. The only public holiday occurring this term will be in Week One on Friday the 6th of February, for Waitangi Day. Sessions will not run this day, and the term fees have been altered to reflect this.

Sandy Haynes (King's Sports School Coordinator)

ARCHERY

Archery is a sport that everyone can enjoy, whether competitively or just socially. Archery helps students develop their own process of achieving outcomes, as opposed to just being outcome focused and target orientated. Initially we will be offering archery on a Tuesday lunchtime, and look forward to finding and developing future archers.

BASKETBALL

Our basketball programme is a great way to improve basketball skills and knowledge.

Run by experienced coach Randy Skelton, his aim is to give the boys grounding in the game, and introduce them to competitive basketball via a local league. Training will give boys an opportunity to improve their basketball skills; including passing, shooting, ball-handling and foot-work. Players will then apply these skills into a fun and competitive game situation in the last 15 minutes. A key component of the programme is to develop young basketballers to the point where they will enter and compete in local leagues.

There are three coaching options offered:

- Basketball Coaching and League – This includes ‘at school’ coaching and entry into a local competition
- Coaching in School – For players wanting to improve their skills without joining a league
- Scrimmage – Simulated game practice session, where skills learnt are put into practice

All league games will be played at Saint Kentigern’s School (82 Shore Road, Remuera). Games run 30-40min and it is expected that all boys arrive at least 15min prior to start time. Parent Manager and Coach support will be required to help with teams.

When enrolling please choose whether you wish to enrol solely in ‘at school coaching’ (Coaching in School and Scrimmage sessions), or in the League Trainings and Games (for more able players). If you are unsure please contact the Sports School office.

CHESS

One of the great games continues its long standing popularity as part of the King's Sports School. The Chess Programme will take place every Wednesday for first time novice players, Thursday, for intermediate and advanced players, and Friday, for junior players.

We also continue to be extremely fortunate to have the services of our Chess tutors, headed by Mr Ewan Green, who will be able to provide assistance in the intricacies of chess to all boys attending, as well as providing structured lessons to boys who are new to this activity. The Chess School is the ideal activity to get the brain ticking over and one that will bring lifelong enjoyment. Opportunities exist for boys in our chess programme to participate in an inter-school tournament.

HOCKEY

The training will begin with the very basics of good hockey skills - hitting, trapping and tackling and will develop to include more advanced skills as the sessions develop. The coaching will be fun based and focused on developing skills that will lead into small games and team strategies. Children will learn the fundamentals of hockey in a fun, challenge oriented environment and it will be a great base upon which to decide whether hockey is a sport that they may wish to continue with in the future. This is a great programme to develop skills and Jonathan has established a wonderful reputation here at King's with his knowledge and patience.

KARATE

Sensei Dennis May (8th Dan Black Belt) is the Director of the King's School Karate Programme. He and his instructors continue to run their ever popular classes.

Our aim is to provide quality instruction with a strong emphasis on personal development, self-defence, and health and fitness. The King's Karate Programme will be teaching a traditional style of karate called Goju Ryu (or hard and soft style). Goju Ryu has an equal emphasis on hard and soft techniques, and is ideally suited for younger students. A traditional style; it is firstly a complete exercise programme and secondly, includes the practical benefits of self-defence.

Training

Initially students learn in a strictly non-contact environment progressing according to their own abilities. Emphasis is placed on defence rather than attack. As a student advances technically they learn increasingly intricate techniques, and are gradually exposed to controlled contact applications of karate techniques.

Students will occasionally be taught self-defence. Techniques that do not involve punching or kicking, but rather simple yet effective restraining holds. Progress made by the boys so far has been outstanding with many of the boys becoming yellow belts and beyond.
