Archery

Archery is a great sport that is both competitive and social. Our instructors have only four out of eight students shooting at one time so they can have their full focus on a small number of students. Archery is a very popular choice so this activity fills up quickly.

Students must wear PE gear to participate and racquets are provided.					

BASKETBALL

Our basketball programme is a great way to improve basketball skills and knowledge. The aim is to give children a grounding in the game and introduce them to competitive basketball via a local league. Training will give participants an opportunity to improve their basketball skills; including passing, shooting, ball-handling and footwork. Players will then apply these skills in a fun and competitive game situation. All boys who are interested in playing Basketball must book in via iClassPro to trial for Representative teams.

After the trials, the coach will determine who will play in the teams in the out of school league at St Kentigern Boys' School.

Parents are responsible for transporting their sons to after school league games should their son be selected to play in a representative team.

If your son is not selected they will be able to join Year 5-8 Basketball in the in-house session on Friday afternoons at King's School.

If boys are selected to play for the school in a representative team then league games will be played at St Kentigern Boys' School after school. An additional league fee of (\$100) will be charged to your School account should your son play representative league basketball.

Note that all students must find their own transport to the after school games.

PLEASE NOTE: ALL STUDENTS MUST HAVE A MOUTHGUARD TO PARTICIPATE

CHESS

One of the great games continues its long-standing popularity as part of the King's Extra-curricular Academies.

The chess programme takes place every Wednesday for first-time novice players, Thursday for advanced players, and Friday for intermediate players. Chess is for year 3 to year 8

We continue to be extremely fortunate to have the services of our chess tutors, headed by Mr Ewen Green. The boys are shown different scenarios as a group at the beginning of the lesson and then the boys play games for the rest of the lesson, putting into practice what they have learnt.

Chess is a fantastic game to get the mind working and is a game that you can play at any age with lifelong enjoyment. There may be opportunities for students in the chess programme to compete in an inter-school tournament.

Chess is a popular activity and whilst we would like to cater for all children wishing to be involved, we have to limit numbers to fit the venue. Children who choose this programme should be prepared to attend every session. Failure to do so will see their space given to others on the waiting list.

FOOTBALL

The beautiful game of football brought to you by Cobi Allen and coaches from Elite Sports. An innovative approach to football that puts emphasis on fun, ball mastery, and learning about the various aspects of the game. A key component in this class is to not only become a better footballer but also encourage good character and sportsmanship.

King's Flippa Ball, Mini Polo & Water Polo

Flippa ball (Year 3 & 4) and **Mini Polo** (Year 5 & 6) are extra-curricular programmes here at King's. This is a great entry level sport which leads into water polo. The boys get to learn the game and compete regularly in an outside league competition. Flippa ball will have their training and game on Sunday. They will not have the option for additional training during the week.

The training and game will take place on Sunday afternoons ranging from 12.30 pm to 3.30pm. The organisers allow an hour slot per team which includes a half an hour training session and a 20 minute game.

Mini Polo (Year 5 & 6) also has an extra training session on Wednesday mornings 7.00 am to 7.45 am

Water polo (year 7 & 8) is an extra-curricular sport here at King's.

The expectation is after trials boys are committed for both Term 2 and Term 3 2024.

Teams will be entered into the Atlantis City Water Polo and Aquatics KAP 7 Intermediate Central League which runs from Week 1 Term 2 until Week 8 Term 3. Cost includes coaching 3 times a week, league entry and three Weekend Events that we enter (based on interest) which are:

Winterfest 21 - 23 June

HOCKEY

Hockey is under the direction of local premier club Somerville.

Sessions will target individual technical skills working from the club's specific syllabus before breaking into small game situations where players are taught "where and when" to be during match play.

The programme offers a base for developing players through to the upskilling of rising stars with representative aspirations. Participants also become eligible for the clubs "Hooked on Hockey" holiday programme reserved for club members.

KARATE

Our aim is to provide quality instruction with a strong emphasis on personal development, self-defence, and health and fitness. The King's karate programme will be teaching a traditional style of karate called Goju Ryu (or hard and soft style). Goju Ryu has an equal emphasis on hard and soft techniques, and is ideally suited for younger students. A traditional style, it is firstly a complete exercise programme and secondly, includes the practical benefits of self-defence.

Training

Initially students learn in a strictly non-contact environment progressing according to their own abilities. Emphasis is placed on defence rather than attack. As a student advances technically they learn increasingly intricate techniques and are gradually exposed to controlled contact applications of karate techniques.

Students will occasionally be taught self-defence. Techniques that do not involve punching or kicking, but rather simple yet effective restraining holds. Progress made by the boys so far has been outstanding with many of the students becoming yellow belts and beyond.
